MEDI-FIRST®

**Reference: Material Safety Data Sheets (MSDS) for all liquid and tablet over-the-counter drugs.**

**Dear Customer,**

**Please be advised that all our products (to include):**

**Green Guard**

**Medique**

**Medi-First**

**Medi-First Plus**

**Otis Clapp**

**Dover**

**are exempted from the MSDS requirement as cited below;**

**OSHA has exempted “drugs” in a retail establishment which are packaged for sale to consumers” (29CFR 1900.1200 (b) (6) (v)). Accordingly, all over-the-counter drugs were exempted from point of packaging since they are packaged prior to reaching a retail establishment (53 FED.REG. 29838-39 (August 8, 1988)). OSHA has further stated: “since these products are exempted, employers which package them for retail sale would not have to furnish MSDS to distributors receiving the product” (52 FED.REG. 31862 (August 24, 1987); 53 FED.REG. 29834 (August 8, 1988)).**

**Therefore, over-the-counter drugs prepackaged for retail sale are exempt from the OSHA Hazard Communication Standard requirements (including the requirement for a MSDS) from the time of packaging regardless of the product’s final physical form.**

**Please contact Customer Service for further information.**

**Sincerely,**

*Debra A. Lehnus 3-8-12*
